

Good day. I am writing in earnest support of K-LOVE as a vital resource and service to the San Antonio community. There are far too few outlets that offer emotional and spiritual support on a daily basis. As a recent transplant from the DC area I know firsthand the stress and frustration of commutes and aggressive, fast-paced jobs and lifestyles. K-LOVE offers uplifting, thought-provoking alternatives to the daily-grind and has had a truly beneficial impact on individuals in this community. Their motivation is purely to bring joy and peace to their listeners. This message has left an indelible impression on how I approach not only my morning drive in traffic, but how I interact with others. Wholesome values in radio and television seem to be disappearing at a rapid rate and I know the public is better served with K-LOVE available to them through these FM translators. I sincerely hope the FCC will consider this petition and recognize what a necessity K-LOVE truly is. Thank you for your time and regard to this pressing issue.
